

ACM Career Week

Reflections|Projections 2017
University of Illinois
at Urbana-Champaign

Hi!

We would like to invite you to participate in ACM Career Week 2017, a Computer Science focused career event hosted by ACM@UIUC and the University of Illinois Department of Computer Science. ACM Career Week complements Reflections|Projections, our annual tech conference. The career week and the tech conference events occur in sequence, giving you the opportunity to offer workshops and give tech talks to create awareness and build interest in your company.

ACM@UIUC values your time as much as we value our students' time. We want to connect qualified students to your company while maintaining an excellent recruiting experience; as a result, we have developed unique systems to make your recruiting experience as comfortable and orderly as possible.

ACM Career Week 2017 will take place from September 26th to 28th, with a career fair on the 27th, a startup fair on the 26th, and corporate events throughout the entire week. Reflections|Projections 2017 will take place from September 28th to October 1st.

The next page has more details on how you can participate in ACM Career Week 2017. If you have any questions, please reach out to us!

We look forward to working with you to make ACM Career Week and Reflections|Projections 2017 a valuable experience for both your company and our students.

Thank you,

ACM@UIUC Corporate Committee
